

ROUS
COUNTY COUNCIL

Be wise with your water

Across

1. Have a long soak in the bath but keep your showers _ _ _ _ _.
5. Plants that are adapted to our local environment do not need watering and are home and habitat for our local wildlife.
7. Found in the night time sky and on all water conservation rated shower roses, bubblers, aerators, dishwashers and washing machines.
8. Use this in the sink to control your water use when washing, rinsing and cleaning.
10. Used when washing your car (on the lawn of course).
11. Records how much water you are using at your home or school.
13. Look after your taps and toilets, watch out for and fix or report these immediately.
15. The water efficient toilet. (2 words)
16. Attached to the hose to control and save water.

Down

2. If every one installed one of these and connected it for toilet flushing and outdoor use, it would save 50% of our daily water use.
3. Put in taps to reduce the water flow and you may not even realise.
4. Soak don't spray, water these not the leaves.
6. Fixed to the garden tap to help control watering times. (2 words)
8. Safe drinking water comes to your school in these from the town reservoir.
9. This type of water is used more than once.
10. Used to clean the path or driveway, without wasting water.
12. Keeps the soil cool and moist, reducing the evaporation by 75%.
14. To save water with a dishwasher, make sure it is _ _ _ _ _ before you turn it on.
