

Fluoridation

Policy

Approved by Council: 19/07/2006

Determine whether Rock Creek Dam water supply should be fluoridated

Policy statement

Rous Water fluoridate the water supplied to its respective constituent Councils where a Council advises Rous Water that it would support either fluoridating their water supplies or referring such decision to the Director-General of Health. Should a constituent Council determine not to accept either of these options, Rous Water would not fluoridate water supplied to that Council's area.

The charge for water dosed with fluoride be the same as the charge for water not dosed with fluoride.
